

## **FTOC Peer Review2**

**Quality of Work:** (3 points) The game is starting to become what you planned it to be and there was a lot of hard work put into getting where you have been. Good job and keep up the hard work!

**Project Progress:** (3 points) It is apparent that you are making progress on the game and that it is coming together. Seems that the game will be functioning better by the next milestone.

**Video:** (3 points) You explained well how the different parts of the code work and how the game is structured. You also explain what to plan to add to the game in the future to make the game better.

**Quality of Draft:** (0 points) There is no rough draft, but even if you are not done with your project, you could start the rough draft and put in an introduction and lay out what the rest of the paper will contain when you are done with the game.

**Journal:** (1 points) Even though you do not have a journal listed anywhere I'm sure there are plenty out there you can pick from.

**Video:** (2 points) The video did not talk about the rough draft, but you did talk about the steps of the project which will end up in your rough draft.
