

Project

Category	Full Marks (3 Points)	Partial Credit (2 Points)	Partial Credit (1 Points)	No Marks (0 Points)	Score
Quality of Work	Work (e.g., code) looks correct and organized. The project's readme file is clear, intelligible, and give a good idea of what the project is about.	Work (e.g., code) looks mostly correct and organized. The code could be better structured. OR the project readme file is somewhat unclear.	Work (e.g., code) is mostly disorganized. OR the project readme file is very unclear.	No code is given.	3
Comments (e.g. Give an example of what could be improved. How can the code or readme file be improved?, etc.)	Looks sweet! You did a lot of really good prep work at laying out the project, so you and anyone interested in the project will be able to check in at any stage to see where you're at.	No errors in the base code it looks like so great work. I'm also excited to see this in action!			
Intellectual Merit	The project looks interesting, creative, and/or substantial.	The project is interesting, creative, and/or substantial, but does not seem feasible to do in a semester.	The project lacks substantial complexity.	No code is given or the project description is too vague to determine if the research has merit.	3
Comments (e.g. Give an example of what could be improved. If the project is too complex, what parts of the project could feasibly be done? If the project is too simple, what features could be added?)	Way to choose something outside of your comfort zone, using python is already out of the university's zone because we have almost nothing on Python. It's also going to take				

	some extra skill to make everything run well at the first-person level. Everything looks cool as I said, so good luck!				
Video	The video gives a helpful, clear depiction of the project.	The video gives a helpful, clear depiction of the project, but is confusing or vague in parts.	The video does not give a helpful, clear depiction of the project.	The video is missing or is inappropriate.	3
Comments (e.g. Give constructive feed back to help improve the presentation style.)	Video goes over every current aspect of the project is well done!
